Living Earth Mac App Wrong Temperature

View global weather dynamics on our planet with real time weather maps and tropical cyclone tracking. Living Earth presents a stunning live 3D simulation of our planet with weather, forecasts and world clock for millions of cities around the world. Solid and absorbing, he builds a vivid picture of the characters who live in a place like Chase, Kansas, lived there, built it, worked it, farmed it, hunted it, sold it, crashed in it, and just about every aspect you could imagine. It truly is a 'deep map' His writing on nature and the living earth is beautiful.
